

09:00 - 10:00	Registration & Morning Networking Tea
10:00 - 10:15	Welcome and Ice-breaking Session
10:15 - 10:20	Company Briefing
	Plenary Session: The Solar Leadership Dialogue
10:20 - 10:30	Opening Remarks by Chief Guest - Atty. Nancy Aurora Q. Fajardo, Executive Director, Energy Regulatory Commission (ERC)
10:30 - 10:45	Keynote Address by Ms. Claire Marie Yvonne Lee, Director, Renewable Energy Association of the Philippines (REAP)
10:45 - 11:00	Knowledge Presentation
	Techno Commercial Presentations
11:00 - 11:15	Partner's Presentation 1
11:15 - 11:30	Partner's Presentation by Mr Qiang Li, Philippines General Manager, Skyworth
11:30 - 11:45	Partner's Presentation by Mr. Ryan L. Mendoza, Country Sales Manager – Philippines, Hopewind
11:45 - 12:00	Partner's Presentation by Ms. Chester Yap, VP – APAC Business Development, Nextwave Energy Monitoring
12:00 - 12:15	Networking Tea Break
12.15 - 13:00	Panel Discussion 1: Utility-Scale Renewable Energy, Energy Storage, Green Hydrogen & Grid Transformation – Building Reliable, Flexible and Future-Ready Power Infrastructure
	Strategic Discussion Areas: 1.The next phase of utility-scale solar, wind, floating solar, and hybrid renewable energy development. 2. Grid expansion, transmission congestion, and interconnection challenges affecting project delivery. 3. The evolving role of Battery Energy Storage Systems (BESS) in system flexibility, peak management, and grid reliability. 4. Solar-plus-storage and hybrid project models supporting more predictable and dispatchable renewable power. 5. Aligning generation development with transmission planning and regional demand growth. 6. Digital grids, forecasting, automation, and AI-enabled power system optimisation. 7. Procurement mechanisms, auction programmes, and commercial models supporting large-scale investment. 8. Addressing land access, permitting, right-of-way, environmental approvals, and construction risks. 9. Strengthening energy resilience across Luzon, Visayas, Mindanao, and off-grid areas. 10. Green Hydrogen as a Pathway for Renewable Energy Utilisation and Long-Duration Energy Storage 11. Unlocking Green Hydrogen: Infrastructure, Offtake Opportunities and Market Development in the Philippines. Confirmed Panelists: Ms. Modini Yantrapati, Principal Consultant, AFRY - Moderator Mr. Hanzel Cubangbang, Chief Development Officer (CDO), Upgrade Energy Philippines Ms. Ruth P. Briones, Chair & President/CEO, Greenergy Solutions Inc. Mr. Reyland Benjamin, Chief Strategy Officer, RASLAG Corp Mr. Michael Sinocruz – Director, Energy Policy and Planning Bureau, DOE Philippines Mr. Ambrocio Rosales, Assistant Vice President & Head of Mindanao Operations & Maintenance, National Grid Corporation of the Philippines Mr. Junrhey Castro, Managing Director, BayWa r.e.
13:00 - 13:03	Q & A with the Audience

13:10 - 14:00	Networking Lunch Break
14:00 - 14:15	Partner's Presentation by Mr. Arnold A. Reyes, REE, Service Manager, SolarEdge Technologies
14:15 - 14:30	Partner's Presentation by Agile Technologies Inc
14:30- 15:15	Panel 2: Distributed Solar, C&I Energy Transformation & Consumer Energy Participation: Expanding Clean Energy Access Across Businesses, Industries, Communities and Homes
	Strategic Discussion Areas: 1. The growth outlook for rooftop solar and distributed energy resources across the Philippines. 2. Accelerating renewable energy adoption among commercial and industrial consumers. 3. Corporate power procurement, retail competition, green energy supply, and alternative contracting models. 4. Integrating behind-the-meter battery storage for resilience, peak-demand management, and cost optimisation. 5. Expanding residential solar through simplified approvals, financing, and consumer-friendly business models. 6. Net-metering reforms, credit banking, and improved transparency in distribution-grid hosting capacity. 7. Distributed energy opportunities across malls, factories, industrial parks, hotels, hospitals, and data centres. 8. Smart meters, digital energy management, demand response, and AI-enabled consumption optimisation. 9. Aggregation, virtual power plants, and emerging commercial models for distributed assets. 10. Improving clean energy access in island, rural, and underserved communities. Confirmed Panelists: Mr. Gaston Franco Perez de Tagle, Partner, Quisumbing Torres - Moderator Mr. Lance Dy, Director for Growth and Revenue, Netsolar Mr. Mike M. Consenheim, CEO, SolarNRG Philippines Ms. Miles Ballestar, Vice President for Luzon, Italian Chamber of Commerce in the Philippines (ICCPi) Mr. Nikko M. Dimazana, Assistant Vice President & Head of Energy Sales, Marketing & Regulatory, Mabuhay Energy Mr. Riedo A. Panaligan, President, Center for Renewable Energy and Sustainable Technology (CREST) Ms. Catherine Tunguia, Managing Director, CT Energy Pte Ltd
15:15 - 15:20	Q & A with the Audience
15:20 - 16:05	Panel Discussion 3 - Green Finance, Investment & Bankable Clean Energy Projects: Mobilising Capital for the Philippines' Expanding Energy Transition
	Strategic Discussion Areas: 1. The investment outlook for solar, wind, battery storage, grid infrastructure, and distributed energy. 2. Financing utility-scale projects emerging from renewable energy auctions and bilateral procurement. 3. Green bonds, sustainability-linked loans, blended finance, and climate-finance instruments. 4. Improving project bankability through stronger contracts, risk allocation, and revenue certainty. 5. Managing foreign-exchange, offtaker, curtailment, permitting, and interconnection risks. 6. Financing battery storage and hybrid projects with evolving revenue models. 7. Investment structures for rooftop solar, C&I portfolios, and energy-as-a-service platforms. 8. Public-private partnerships and government facilitation of strategic clean energy infrastructure. 9. Attracting infrastructure funds, institutional capital, and long-term international investors. 10. Moving projects from development pipelines into construction and commercial operation. Confirmed Panelists: Ms. Alexandra Gamboa , Managing Partner, YDL Law - Moderator Mr. James Buskowitz – CEO, Buskowitz Energy Mr. Edward Douglas, Co-Founding Partner, Kairos Renewables Mr. Saurabh Sipani, Head of Investments, Hexa Renewables Asia Advisory Mr. Harit Puri, Vice President, Enertrans Global Ms. Rachel Ann Santiago Sacro - Country Manager, Clime Capital Mr. Morris Zhou, Co-Founder and Group CEO, Berde Renewables Ms. Erika Rose Alejar, Risk Officer – Environment and Social Risk, UnionBank of the Philippines
16:05 - 16:10	Q & A With the Audience
	The Solar Week Philippines 2026 Leadership Awards
16:10 - 16:20	Address by Guest Of Honour
16:20 - 17:00	The Solar Week Philippines 2026 Leadership Awards Ceremony
17:00 Onwards	Networking Tea & End Of The Day

11:30 - 13:00

Leadership Roundtable Session 1 - Industrial Decarbonisation, Corporate Sustainability & Net Zero Leadership: Transforming Clean Energy Commitments into Business Competitiveness and Long Term Value

Roundtable Discussion Focus:

1. Building practical and measurable corporate decarbonisation roadmaps.
2. Integrating renewable energy procurement into long-term business and investment planning.
3. Managing Scope 1, Scope 2, and Scope 3 emissions across complex supply chains.
4. Industrial electrification and clean power solutions for energy-intensive sectors.
5. Energy efficiency, digitalisation, and operational optimisation as decarbonisation tools.
6. Renewable Energy Certificates, carbon markets, and environmental attribute strategies.
7. Sustainable finance and ESG-linked capital for industrial transformation.
8. Decarbonising industrial parks, manufacturing clusters, and export-oriented facilities.
9. Climate disclosure, governance, and board-level accountability.
10. Strengthening supply chain sustainability and meeting global customer requirements.
11. Aligning decarbonisation with productivity, cost control, and international competitiveness.
12. Building corporate resilience against energy price volatility and climate-related risks.

Confirmed Speakers:

Mr. Laurence Lumagbas, Senior Director - Climate Change and Sustainability Services, EY - Moderator
Ms. Maria Francesca, Managing Director, BECIS
Mr. Jayr Romarate, Regional Head of ESG, Verdant Energy
Mr. Roger Sarmiento, Head of Sustainability, Makati Development Corporation
Mr. Mark Gil Verzola, Corporate Energy Director, Manila Water
Mr. Shaurya Ritwik, Managing Director, International Institute for Sustainable Finance
Mr. Lorenzo Mancini, Head of Sales, Power Sales & Marketing, Peak Energy
Mr. Christer Gaudiano, VP – Head of Sustainability, Meralco PowerGen (MGEN)
Mr. Lucky Jay Damaso, Corporate Energy Head, Robinsons Land Corporation
Mr. Ignacio (Iggy) C. O. Sison, Chief Sustainability Officer, Del Monte Philippines, Inc.
Mr. Marc Cox, Sustainability Leader, Coca-Cola Europacific Aboitiz Philippines

14:30 - 16:00	Leadership Roundtable Session 2 - Project Delivery, Asset Performance & Clean Energy Operational Excellence: Converting the Project Pipeline into Reliable, High-Performing and Long-Term Assets
	Roundtable Discussion Focus: 1. Delivering renewable energy projects on time, within budget, and to international quality standards. 2. Navigating permitting, land acquisition, local government approvals, and grid interconnection. 3. Strengthening engineering, procurement, and construction practices across complex project environments. 4. Building resilient module, inverter, battery, and balance-of-system supply chains. 5. Local content development, workforce capability, and specialised technical skills. 6. Improving solar asset availability, generation yield, and operational efficiency. 7. Digital asset management, SCADA, drones, AI, and predictive maintenance. 8. Managing extreme weather, climate resilience, and disaster preparedness. 9. Quality assurance, commissioning, and performance validation. 10. Battery safety, system integration, warranties, and long-term performance management. 11. Asset refinancing, portfolio optimisation, and secondary market opportunities. 12. Extending asset life and maximising long-term commercial value through advanced O&M. Confirmed Speakers: Ms. Jane Tay, Founder and CEO, Clean Energy SEA - Moderator Mr. Robert Gerard Nepomuceno, President/CEO, Raslag Corp Mr. Dave Torcuator, Chief Operating Officer, NetSolar Mr. Karlo Abril, Vice President for Strategic Projects, SunAsia Energy Mr. Bong Mallillin - Director of Asset Management, Berde Renewables Mr. Michael Angelo D. Pedregosa, Operations Group Head, Jin Navitas Solaris Inc. Mr. Arnulfo Aljecera Almeniana, Charter Member, Rotary Club of AIM
